AI-Powered Presentation Generator

Welcome to the **AI-Powered Presentation Generator**!

This tool helps you create professional presentations effortlessly.

Features

- Generate slides from text, files, or URLs

- Download as PowerPoint

- AI-powered content and image generation

- Customizable themes and layouts

How It Works

1. Input your content (text, file, or URL).

2. AI generates slides with titles, content, and images.

3. Preview and download your presentation.

Thank You!
